

GULF CHEMICAL
& Metallurgical Corporation

An Eramet Group Company

Sampling Instructions

Sample Requirements:

One (1) pint **representative** sample of catalyst is required for testing

The sample must be clearly labeled with the following information

Refinery
Refinery Location
Unit ID

It is the refinery's responsibility to package and ship according to EPA & DOT regulations

Ship to:

Gulf Chemical & Metallurgical Corporation
302 Midway Road
Freeport, TX US 77542-2290
ATTN: LAB - Catalyst Acquisitions Sample

In order to ensure your sample is processed in a timely manner:

Include a completed sample request information sheet for **each** sample submitted (page 2)

Contact a customer services representative with any questions

Email tracking information to the customer service representatives

If sending more than one sample from different units/reactors, be sure to complete a sample request sheet for each of the samples. **DO NOT** put all of the information on one sheet.
